INSURANCE**

PRODUCT
FEATURES

CONTRACTOR TECHNICAL INSURANCE

The Contractor Equipment product is designed to meet the coverage needs of rural and/or commercial machinery, (excluding road equipment), required by companies and/or agricultural-livestock establishments.

CONTRACTOR TECHNICAL INSURANCE

POSSIBLE COVERAGE:

- » Total damages due to accident, fire, theft.
- » Total and/or partial damages due to accident, fire, theft.
- » Civil liability while the equipment is carrying out its specific task on the land surface and on dry land, including its eventual transit and land transportation (provided it is carried out by its own means and/or by the Insured's own units), and/or land deposit.

The goods indicated in the list of Contractor Equipment are covered against loss and/or external material damage, provided that such loss and/or damage occurs accidentally, suddenly, and unforeseen and that a repair and/or replacement is necessary as direct consequence of any cause or circumstance not expressly excluded.

The insured sum is determined as the equipment's "new value" and will be indemnified at first absolute risk. Consequently, the insurer will indemnify the damage up to the limit of the informed insured sum.

Claim

In the event of an accident, if there is a difference between the insurable value and the insured value, the pro rata clause will be applied, where the insurer will respond for the damage in the proportion that exists between both values.

TYPES OF MACHINERY

Example of machines that can be insured:

- » Forklifts
- » Conveyor belts
- » Compactors
- » Harvesters
- » Elevators
- » Excavators
- » Cranes
- » Bridge cranes
