CONSTRUCTION
ALL RISK

PRODUCT
FEATURES

CONSTRUCTION ALL RISK

The Construction All Risk Insurance or CAR, was created to cover all kinds of civil works under construction, providing coverage both against damage suffered on site, including the contractor's construction equipment and construction machinery; as well as against third party claims for damages to their property and persons, when these occur because of the construction works.

CONSTRUCTION ALL RISK

Intended to cover the risks of unforeseeable or accidental damage or loss, resulting from construction and civil engineering works, the Construction All Risk policies solve the coverage needs of the different interests of the parties involved in a work and/or assembly: owners and main partners, contractors, managers, and subcontractors.

This insurance is intended to cover the construction, expansion, or modification of different types of work such as:

ARCHITECTURE:

Homes, offices, schools, buildings, etc.

CIVIL ENGINEERING:

Manufacturing plants, highways, routes, bridges, dams, airports, etc.

COVERAGE TYPES

COVER A:

Material damage suffered by the insured goods for any reason that is not expressly excluded and cannot be covered under the additional coverage detailed below.

COVER B:

Earthquake, tremor, tidal wave, volcanic eruption.

COVER C:

Cyclone, hurricane, storm, wind, flood, overflow, etc.

COVER D:

Maintenance - Damages caused directly by the contractor during the execution of the operations carried out with the purpose of complying with its obligations that arise from the maintenance clause of the construction contract.

COVER E:

Civil liability for property damage.

COVER F:

Civil liability for damage to persons.

COVER G:

Disassembly and debris removal.

SUBLIMITS

Some endorsements / sub-limits to apply depending on the work to be insured:

- » Strike, Riot and Civil Commotion.
- » Cross Civil Liability.
- » Ample maintenance months.
- » Weekly Work Progress Schedule.
- » Overtime, Night Work, Express Freight.
- » Air freight.
- » Structures in seismic zones.
- » Assets outside the construction site.
- » Machinery and Installations Test.
- » Underground Cables and Pipes.
- » Camps and Warehouses.
- » Storage of construction material.
- » Safety measures for precipitation, flooding.
- » Fire extinguishing equipment.
- » Laying of Pipes.
- » Existing Property.
- » Piling Foundations.

ASSEMBLY ALL RISK

It is a product designed to cover the risks related to the assembly and disassembly of machines, devices and metallic structures of a work and installation of machinery, as well as the losses that you may suffer due to unforeseen damages.

The validity of this policy will be equal to the length of the assembly itself and the coverage granted will be the same as in All Risk Construction, including Civil Liability.
